

# Deciding on a major

# Go wherever your curiosity takes you at St. Norbert College

---

If you're not quite sure what you want to major in, why not enroll at a college that welcomes explorers?

At St. Norbert, we're happy to let you explore our 30+ majors and 80+ programs of study. You're sure to find one that provides a spark. If you don't, you can create your own major! And you don't have to decide until your sophomore year!

College is about discovering your passions and determining your calling. At St. Norbert, we're set up to help you do that: We can provide you with a wide array of career- and self-assessment tools, highlight the different careers you can pursue with various majors, welcome you to career fairs, and provide one-on-one major and career counseling.

Most of all, though, we'll give you a supportive, flexible environment in which to discover what you want to study, where you want to go in life and who you want to become.

**30+**  
majors

**80+**  
programs

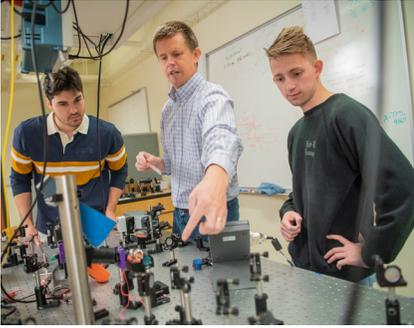

## How we'll help you choose your path ...

**Our Academic Advising and Career Development Center will work closely with you, providing:**

- **Academic advising throughout your four years**
- **Resource fairs to showcase careers**
- **Extensive career and professional development programs**
- **A core curriculum that encourages exploration**

There's helpful information on our website, [snc.edu](https://snc.edu). (For instance, in the pages devoted to each of our majors, you'll find a brief list of careers to which they might lead.)

**Here's an eye-opener:**

Fifty percent of the students who “know” what their major is when they enter college will change it before they graduate.

If you want to explore majors before deciding, your best decision might just be to enroll at St. Norbert College. Learn more about our academic programs at
