

Mileage Reimbursement Rate

Effective Date	Rate
January 1, 2024	67¢ per mile
January 1, 2023	65.5¢ per mile

The college will reimburse employees for business use of personal vehicles at the current college rate. The reimbursement includes fuel, therefore, the employee must pay for fuel “out-of-pocket” for personally owned vehicles and may not charge it on a college credit card. The current college rate also applies to any non-employees for whom the college may approve a mileage reimbursement.

Please direct any questions to the Associate Vice President for Financial Services.
